DETAILED ACTION

1. Claims 1-9, 11 and 23-41 are pending.

Claims 23-41 have been added on 4/13/05.

2. Applicant's amendment filed on 4/13/05 has been entered.

The request to amendments in specification and claims has been entered. In view of Applicant's amendment, the rejections under 35 U.S.C. §101 and 35 U.S.C. §112 1st paragraph (see section 9 and 10 of Action filed mailed 1/26/05) are withdrawn.

3. The following new ground of rejections is necessitated by applicant's amendment and addition of new claims filed on 4/13/05.

4. The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

7. Claims 1, 4-7, 11, 23, 26, 29-30, 33-34, 37-38 and 41 are rejected under 35 U.S.C. 112, first paragraph, as containing subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention. This is a New Matter rejection for the following reasons:

The specification as filed does not provide a written description or set forth the metes and bounds of the phrase "or overlapping". The specification does not provide direction for the above-mentioned range of "or overlapping" the amino acid sequence as in SEQ ID NO:1 as they are currently recited. The instant claims now recite limitations which were not clearly disclosed in the specification as-filed, and now change the scope of the instant disclosure as-filed. Such limitations recited in the present claims, which did not appear in the specification, as filed, introduce new concepts and violate the description requirement of the first paragraph of 35 U.S.C. 112.

Art Unit: 1644

Applicant is required to cancel the new matter in the response to this Office Action. Alternatively, Applicant is invited to provide clearly point out the written support for the instant limitations.

8. Claims 2, 3, 8, 9, 24-25, 27-28, 31-32, 35-36, 39, and 40 are allowable.

9. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
